

ECHO: Groupshow

Group Exhibition Ardez

July 31–August 28, 2021
Fuschina 79 (Entry Tschuffa), Ardez
Wednesday–Saturday, 3–6 pm or by appointment
Opening: Saturday, August 7, 2021; 4–7 pm

Arranged in the Stalla Tschuffa, a vacant Engadine hay barn, Galerie Urs Meile, based in Beijing-Lucerne-Ardez, presents the group exhibition *ECHO*, bridging the distance between its locations. Suspending time and space, an aesthetic moment inaugurates with echoes of unique voices: Ju Ting (*1983, China) combines painting and sculpture to form novel pictorial works. On display are works from the *Pearl* series, for which Ju Ting applies layers of acrylic paint on top of each other. She then cuts the surface with a carving knife to expose superimposed layers of paint. Cao Yu's (*1988, China) interdisciplinary practice sharply reflects on the role of women and female artists in Chinese society. Her works, both provocative and self-reflective, explore our complicated relationships to the natural world, to each other, and within our desires to find meaning in our lives. Rebekka Steiger's (*1993, Switzerland) paintings, which oscillate between abstraction and figuration, carry us into distant landscapes, while Tobias Kaspar (*1984, Switzerland) continuously explores the powerful structures of marketing and their influence on our consumer behavior. Subtly playful or concretely challenging, a chamber of resonance reveals and questions the location of the self within appearances and being.
